Make Your Dream Barn A Reality

2 STEPS TO

Horseman's World

This Month We Love

Skin Care for Equestrians

The professional skin care expert and equestrian Donna Matrianni developed Donne & Cavalli (Italian for "women and horses") to provide for the skin care needs of horsewomen. "Equestrian athletes

suffer continuous damage to their skin because of the work it takes to care for and maintain their horses," Matrianni says. With this in mind, she created products made with essential oils that have a fragrance horses love and ingredients humans benefit from, including hydrating sunscreen with Japanese green tea, hand and body cleanser and lotion, soothing salve for horse and rider, and six different olive oil soaps.
