

Stable Skin Care...with a little horsing around!

What does the horsy set use to keep their skin "equine chic"? The Donne and Cavalli botanical skin line, of course. Whether it is sun block for the polo match, glowing skin for the evening's equestrian charity ball, or a delightfully dewy complexion for a day of dressage...ultra chic equestrians know to turn to Donne & Cavalli for the skin care products that keep them looking like they belong on their high horses.

But the secret of Donne & Cavalli's botanical line is slipping out of the stables...fashion and beauty hounds everywhere are nickering the accolades of this incredible skincare line.

So for all you beauty editors and product testers who are chomping at the bit to feature a new line in your column... we say "giddy up". Contact Donna Mastrianni, the Master Esthetician and equestrian inspiration behind the line for product samples, inside scoop, photos and a personal interview. Be the first out the start gate, check out www.donneandcavalli.com and call Donna at 912-634-4972 or email products@donneandcavalli.com...and enjoy the ride!
